## about us

**At animovel**, we have been manufacturing and developing furniture since 1958. For over 60 years, we have stood out as one of the main drivers of innovation and production in the Portuguese furniture sector.

**We create** and design versatile and innovative collections, in partnership with several renowned national and international product designers. It was this pioneering sense of innovation and product development that drove animovel to the success.

**Today** we have about 80 dedicated professionals, in a production unit spanning more than 8000m<sup>2</sup>, and with the most advanced technology that this industry knows.

**In six decades**, it was the entrepreneurial spirit that marked all the advances and developments, in a space that grew in a consistent way, and always focused on the sustainable future of the animovel family.

## our story

Founded by Anibal Carneiro, animovel, then know and registered under his own name, Anibal Carneiro Barbosa Lda, started its activity in **1958**.

## our designers

### christophe lecomte

Graduated from ESAA BOULLE school in 1990, Christophe LECOMTE started his advertising career, creating prototype flasks and PLV's for an important cosmetics brands. His technical knowledge and passion for furniture naturally encouraged him to create his own activity as an independent designer, putting his creativity at the service of the collections of major brands and manufacturers. Today its collections navigate between emotion and function, with a common denominator of elegance and ergonomics.

### alexandre calvário

Industrial designer, graduated from the Universidade Técnica de Lisbon and with nearly a decate of experience in the development and design of high-end and luxury furniture. He has been collaborating for a few years with several independent partners and brands in interior design projects and has recently started to collaborate with animovel. He developed some products related to the new rebranding of the animovel brand, which were included in the upholstery collection.

### joana magalhães

Born and raised in Porto, Portugal, Joana completed a Degree in Architecture at the University of Porto, one of the most prestigious Schools of Architecture in Europe, having spent an academic year at the Federico II University in Naples, Italy. Joana started her career working at the studio Alvaro Leite Siza Vieira, in a very international and avant-garde environment. In 2003, Joana moved to Madrid, where her work encompassed residential and winery architecture and interior design.

### anidesign

The anidesign studio, an integral part of animovel, works on product development and design. The know-how accumulated from decades of experience allows the technical team to design new products and develop different concepts whenever possible. At anidesign, pieces like our Puzzle table were created and developed with the greatest detail and consideration for contemporary design elements. The technical team is endowed with talent, experience and this enables the in-house development of unique pieces.
